22-1 Drawing on material from Jacobs and Skocpol, evaluate the impact of the Affordable Care Act on business firms and on the vitality and growth of the economy as a whole.

22-2 Drawing on material from Jacobs and Skocpol, evaluate the impact of the Affordable Care Act on government spending and indebtedness, being specific in explaining elements of the plan that are likely to have positive or negative impacts.

22-3 Will the Affordable Care Act survive and develop ten years from now into an important part of government service to citizens or do Jacobs and Skocpol think it will fail? What factors will affect long term outcomes?
